

Meggson

*The new name of
Cobot Automation*

The same
team,
the same
vision, a
new name.

Cobot Automation *becomes* MEGGSON

How can we make it clearer to the outside world what we do, how we do it and why we do it? We have been working on this very question. We found the answer in a new name, a new style and a completely new website.

Our new name and style do more justice to who we are: super specialists in handling eggs. We fully focus on the niche that we call placed eggs. That is where our strength lies. Based on a clear vision and ambition.

Can it be simpler and smarter at the same time?

Handling eggs is complex and demanding. We believe that true improvement comes from simplifying complex issues, processes and/or solutions. Based on specialist knowledge and experience.

It is our ambition to allow you as client to achieve maximum result with minimum effort, using minimum time and space. We do this by making our solutions simple without compromising on power. For us, this is the best challenge there is, because simplicity is the most difficult to achieve.

Simplicity
is the most
difficult to
achieve.
Which makes
it the best
challenge
for us.

Nothing more and nothing
less than what you need

Our products for handling and palletisation are simple AND well thought out. They are created under practical conditions, by properly listening to our customers and peeling each question back to its essence. After which we look at it with an inventive eye and consider the minutest detail. This results in compact and easy to use solutions that are supported by smart and innovative technology. Exactly what you need. Nothing more, nothing less.
