

# Inverted tank air escape valve 1600 serie

Tank Air Escape Valves allow free passage of air into tanks, dry cargo holds, or storage space. They protect tanks and bulkheads from pressure build-up during loading and unloading of liquid or dry cargo and assure maximum efficiency during operations.

Tank air escape valves do not have a float or automatic closing, they are used in locations not accessible to sea water. All steel castings are hot dipped galvanized.

All aluminum castings are anodized

## SPECIFICATIONS

### GALVANIZED STEEL / STAINLESS STEEL

#### CONNECTIONS

Threaded

Buttweld

Socketweld

Flanged (metric available)

#### SIZES

1.5", 2", 2.5", 3", 4", 5", 6", 8",  
10", 12", 14", 16"

### Bronze

AVAILABLE IN 90/10  
COPPER NICKEL

#### CONNECTIONS

Threaded

Sil-brazed

Flanged

#### SIZES

1.5", 2", 2.5", 3", 4", 5", 6", 8",  
10", 12"

### ANODIZED ALUMINUM

#### CONNECTIONS

Threaded

Buttweld

Socketweld

Flanged (metric available)

#### SIZES

1.5", 2", 2.5", 3", 4", 5", 6", 8",  
10", 12"
